

## Specifications

### Description

Adcraft's manual gravity feed slicers are constructed of high quality anodized aluminum which makes them extremely durable and easy to clean. Perfect for slicing vegetables and lunch meats. Their small footprint and compact design make them ideal for delis, sub shops and small restaurants. Each model comes with a removable carriage for easy cleanup and a built in sharpener to always ensure a sharp edge for every slice. The blades have a permanently attached ring guard around them for safety. The motors are belt driven and each unit is 110V with a NEMA 5-15 plug. These items are all ETL Certified and backed by Adcraft's one year replace or repair warranty policy.

### Construction

- Constructed of high quality anodized aluminum
- Stainless steel blade lasts long and is easy to sharpen
- Top mounted metal sharpener comes with two grinding stones
- Removable carriage for easy cleaning
- Permanently attached ring guard for safe operating
- Non slip rubber feet keeps the slicer steady and in place

### Operation

- Slicers blades are belt driven for a smooth and effortless cut
- Carriage ball bearings are lubricated for quiet operation
- Adjustable knob allows for precise slicing up to 1/2" thick
- On/Off buttons are enclosed to keep out moisture

### Electrical

- Electrical components are enclosed below the unit keeping them clear of food and other debris
- 110V electrical connection
- 4' power cord with NEMA 5-15 plug

### Usage

- Light duty slicers are ideal for low volume applications with less than 1 hour of slicing per day. These items are not meant for cutting raw or frozen meat and/or cheese.
- Medium duty slicer is ideal for several hours of slicing per day. Slicing raw or frozen meat is not recommended for this item. A maximum of 30 minutes a day of cheese slicing is recommended for this item.
